CURRICULUM POLICY

The Trust’s aims are to ensure that all children within our schools gain a first rate education, develop the skills necessary for the next stage in their lives and are equipped with the personal values and attributes that will make them successful in a fast changing world.

The Trust is committed to ensuring that each child can meet its potential. It expects that all schools in the Trust will work to develop the whole child, with a curriculum that not only ensures all national expectations are achieved, but also enables the child to take its place as a useful and fulfilled member of society. The Trust recognises that each school works in differing communities and with different cohorts of children; the individual school is best placed to design its curriculum intent, implementation and assess its curriculum impact on its cohort.

The Trust expects that each school and its local governing body will write, maintain and use appropriate statements of Intent, implementation and impact and together with procedures to continually develop a curriculum that has a positive impact on children.

Diversity (equality) impact assessment.

Monitoring arrangements – LOCAL GOVERNING BODY. The LOCAL GOVERNING BODY will regularly monitor and evaluate the impact of the school’s documents and procedures in raising the achievement and improving the progress of the children, in line with government and other guidelines. The LOCAL GOVERNING BODY will also seek evidence of the impact of the wider curriculum in children’s spiritual, moral, social and cultural development.
